Curriculum Planned

Name of the event: A Certificate Program on Green Chemistry

Date: 12/09/2022 to 17/09/2022

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of Green Chemistry principles and sustainability in chemical processes
2. The course aims to make student understand Importance of reducing environmental impact and improving efficiency in chemical industries
3. To teach students understand the Principles of green analytical techniques (e.g., spectroscopy, chromatography).
4. To provide knowledge about Application of enzymes and biocatalysts in green synthesis.
5. Multi-step synthesis optimization and waste minimization.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate Program on Computer aided Drug Design

Date: 10/10/2022 to 15/10/2022

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of CADD and its significance in modern drug discovery.
2. The course aims to make student understand the purpose of Evolution of computational methods in pharmaceutical research.
3. To teach students understand the objectives of QSAR (Quantitative Structure-Activity Relationship) and 3D-QSAR methods.
4. To provide knowledge about Role of AI and deep learning in predictive modeling and virtual screening.
5. To learn the basic concept of Intellectual property issues and patent considerations in CADD.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate program on Pharmaceutical Sales Representative

Date: 14/11/2022 to 19/11/2022

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide Overview of the pharmaceutical industry and the role of sales representatives.
2. The course aims to make student understand Basics of pharmacology and understanding drug mechanisms of action.
3. To teach students understand Key medical terminology and concepts relevant to pharmaceutical sales.
4. To provide knowledge about Analyzing market trends, competitor products, and market dynamics.
5. To learn the basic concept of Key performance indicators (KPIs) for measuring sales effectiveness.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Curriculum Planned

Name of the event: A Certificate program on Good Manufacturing Practice

Date: 05/12/2022 to 10/12/2022

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview on Good Manufacturing Practice
2. The course aims to give students a clear understanding about Principles of quality assurance (QA) and quality control (QC) in GMP
3. To impart knowledge about the Importance of Role of senior management in ensuring compliance with GMP.
4. To provide knowledge about Good Documentation Practices (GDP) and data integrity principles.
5. GMP requirements for cleaning procedures and validation.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Curriculum Planned

Name of the event: A Certificate program on Brest and cervical Cancer

Date: 02/01/2023 to 07/01/2023

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of Brest and cervical Cancer.
2. The program is designed to provide the knowledge about Importance of early detection and intervention
3. The program to provide the knowledge about Cervical cancer screening methods (Pap smear, HPV testing).
4. The course aims to give students a clear understanding of Palliative care and pain management strategies
5. To provide knowledge about Interactive workshops on screening techniques and treatment options.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Curriculum Planned

Name of the event: A certificate Program on Drug Regulatory Affairs Chemist

Date: 20/09/2021 to 25/09/2021

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of regulatory affairs in the pharmaceutical industry.
2. The course aims to make student understand Importance of regulatory compliance in drug development, manufacturing, and marketing.
3. To teach students understand the Principles of QA/QC in pharmaceutical manufacturing.
4. To provide knowledge about Regulatory expectations for equipment qualification and validation.
5. Strategies for global regulatory submissions and approvals.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Curriculum Planned

Name of the event: A certificate Program on Analytical Method Development & Validation

Date: 25/10/2021 to 30/10/2021

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of analytical methods in pharmaceutical analysis.
2. The course aims to make student understand the purpose of Importance of method development and validation in drug manufacturing and quality control
3. To teach students understand the objectives Validation parameters: specificity, accuracy, precision, linearity, range, and robustness.
4. To provide knowledge about Principles of AIQ and calibration in analytical laboratories
5. To learn the basic concept of Real-world examples of method development and validation in pharmaceutical analysis

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Date: 22/11/2021 to 29/11/2021

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about clinical research.
2. The course aims to make student understand the purpose of clinical trial.
3. To teach students understand the objectives of Pharmacovigilance.
4. To provide knowledge about principle of Clinical research and pharmacovigilance
5. To learn the basic concept of field of clinical research and pharmacovigilance.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Name of the event: A Certificate Program on Regulatory Medical Writer

Date: 13/12/2021 to 18/12/2021

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of the role of regulatory medical writers in the pharmaceutical industry.
2. The course aims to give students a clear understanding about Writing Clinical Study Reports (CSRs) according to regulatory guidelines.
3. To impart knowledge about the Importance of Writing clinical trial protocols and amendments.
4. To provide knowledge about Structure and content requirements for different regulatory submissions.
5. Impact of artificial intelligence (AI) and machine learning in medical writing.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Name of the event: A Certificate Program on Clinical Research

Date: 07/03/2022 to 12/03/2022

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of clinical research and its importance in healthcare.
2. The program is designed to provide the knowledge about Ethical considerations and regulations governing clinical trials (ICH-GCP, Declaration of Helsinki).
3. The program to provide the knowledge about Strategies for participant recruitment and retention.
4. The course aims to give students a clear understanding of Roles and responsibilities of the clinical research team.
5. To provide knowledge about Risk management plans and safety assessments.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

Name of the event: A Certificate Program on Pharma Instrument

Date: 18/04/2022 to 23/04/2022

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of instrumentation in the pharmaceutical industry.
2. The program is designed to provide the knowledge about Importance of precise and reliable instrumentation in drug development and manufacturing.
3. The program to provide the knowledge about Principles and Operation of Pharma Instruments
4. The course aims to give students a clear understanding of Quality control and assurance in pharmaceutical manufacturing.
5. To provide knowledge about Compliance with regulatory guidelines (FDA, EMA, ICH) for instrument use and data integrity.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Name of the event: A Certificate Program on Isolation and Characterization of Natural products

Date: 14/09/2020 to 19/09/2020

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of natural products and their significance in medicine and industry.
2. The course aims to make student understand the purpose of Extraction methods for natural products (solid-liquid extraction, steam distillation, Soxhlet extraction).
3. To teach students understand the objectives of Chemical Synthesis and Derivatization
4. To provide knowledge about Development of natural product-based pharmaceuticals and nutraceuticals.
5. Advances in metabolomics and omics technologies in natural product research.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Date: 26/10/2020 to 31/10/2020

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of pharmacovigilance (PV) and its importance in drug safety
2. The course aims to make student understand the purpose of Role of pharmacovigilance in public health and patient safety
3. To teach students understand the objectives of Reporting obligations and timelines for adverse drug reactions (ADRs).
4. To provide knowledge about electronic reporting systems (EudraVigilance, FAERS) and their functionalities.
5. To learn the basic concept of Role of risk communication in minimizing adverse drug reactions.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

Date: 23/11/2020 to 28/11/2020

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Overview of TDM and its role in personalized medicine
2. The course aims to give students a clear Understanding about Pharmacokinetic modeling and simulation in TDM.
3. To impart knowledge that is more practical in field of TDM
4. To provide knowledge about Therapeutic ranges and target drug concentrations.
5. To learn the basic importance of TDM in pediatric and geriatric patients.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test

Date: 04/01/2021 to 09/01/2021

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of tablet dosage forms and their importance in pharmaceuticals.
2. The program is designed to provide the knowledge about Components and working principles of tablet presses
3. The program to provide the knowledge about Formulation considerations for tablet production
4. The course aims to give students a clear understanding of Coating formulation considerations and challenges.
5. To provide knowledge about Conducting tablet compression trials with various formulations and Performing quality control tests on manufactured tablets.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

Curriculum Planned

Name of the event: A Certificate programme on Community Pharmacy Enterprenurship

Date: 23/09/2019 to 28/09/2019

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Community Pharmacy Entrepreneurship
2. The course aims to give students a clear Understanding pharmacy laws and regulations (HIPAA, DEA regulations).
3. To impart knowledge that is more practical in field of Community Pharmacy
4. To provide knowledge about Principles of inventory management in a pharmacy setting.
5. To learn the basic importance of Compliance with healthcare standards and quality assurance.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate Program on Drug Development and Quality Control

Date: 06/01/2020 to 11/01/2020

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of the drug development process from discovery to market.
2. The course aims to give students a clear understanding Importance of quality control in ensuring safety and efficacy.
3. To impart knowledge about the Techniques for optimizing drug stability, solubility, and bioavailability.
4. To provide knowledge about Chromatographic techniques (HPLC, GC) for drug analysis.
5. To learn the basic Principles of drug discovery and target identification.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate programme on Clinical Trials

Date: 10/02/2020 to 15/02/2020

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of clinical research and the importance of clinical trials.
2. The program is designed to provide the knowledge about the Detailed explanation of Phase I to Phase IV clinical trials.
3. The program to provide the knowledge about Steps involved in clinical trial planning and protocol writing.
4. The course aims to give students a clear understanding of Ethical considerations and Importance of informed consent process and regulatory requirements.
5. To provide knowledge about Patient-centered outcomes research (PROs) and quality of life assessments..

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate programme on pharmaceutical Research & Drug Development

Date: 20-08-2018 to 25-08-2018

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about drug development.
2. The course aims to make student understand the purpose of clinical trial.
3. To teach students understand the objectives of Good Clinical Practice (GCP) guidelines.
4. To provide knowledge about principle of Clinical research and pharmacovigilance
5. To learn the basic concept of field of drug development.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate programme on Advancement in Nanotechnology

Date: 12-11-2018 to 17-11-2018

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Advancement in Nanotechnology.
2. The course aims to make student understand the purpose of Importance of nanotechnology in various fields.
3. To teach students understand the objectives of Bio-sensing and diagnostic tools based on nanotechnology.
4. To provide knowledge about principle Methods of nanomaterial synthesis
5. To learn the basic concept of Nanotechnology.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate programme on pharmaceuticals & Novel Drug Delivery System

Date: 2-01-2019 to 8-01-2019

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide students basic knowledge about Fundamentals of Pharmacokinetics and Pharmacodynamics
2. The course aims to give students a clear understanding of Novel Drug Delivery System
3. To impart knowledge that is more practical in field of pharmaceuticals
4. To provide knowledge about Controlled and sustained release formulations.
5. To learn the basic importance of Case studies highlighting challenges and solutions in formulation development.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate programme on pharmaceutical analysis & Drug Development

Date: 18-02-2019 to 23-02-2019

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Overview of pharmaceutical analysis as a discipline.
2. The course aims to give students a clear understanding of methods for pharmacokinetic calculations
3. To impart knowledge about the purpose of calculations in drug development.
4. To provide knowledge about interpretations and predict the nature and the extent of the biological effects
5. To learn the basic importance of therapeutics and toxic effects.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.

Curriculum Planned

Name of the event: A Certificate programme on Medical Chemistry & Drug Recovery

Date: 11-03-2019 to 16-03-2019

Time: 09:30AM to 04:30PM

Duration: 36 Hrs.

Curriculum Planned:

1. The program is designed to provide basic knowledge about Medical Chemistry & Drug Recovery
2. The program is designed to provide the knowledge about the Structure-activity relationship (SAR) in drug design.
3. The program to provide the knowledge about Toxicological considerations in drug development and environmental impact.
4. The course aims to give students a clear understanding of Ethical considerations in pharmaceutical research, development, and environmental stewardship.
5. To provide knowledge about Biochemical assays for evaluating drug-target interactions.

Assessment Procedure:

1. 75% of attendance is must for attending the final assessment test
2. Assessment test will have 30 MCQs. Each MCQ carries 1 mark

And total marks are 30 marks.

3. Those who secures more than or equal to 40% marks clears the exam and provided with certificate.
