Hyderabad-500 075. T.S.

More classes of learnings through ICT tools for better understanding and conceptual learnings.

Just try to give suggestions about future to the students

Quality time for learning

More visual presentations and daily life examples will help students understand in a better way.

More activities and events may improve the overall experience of the college.

More exposure to practical experience

Encourage interactive learning.
Provide regular feedback.
Utilize technology effectively.
Foster a supportive environment.
Promote lifelong learning.

Excellent

Well trained staff.

Try to provide practical knowledge on the topics

Good

Nothing

NA

Nil

Good

Learning experience in my institute was excellent

No suggestions needed

Everything is Good

NONE

Utilize the latest technologies,
Prioritize the student & teacher relationship, ask for feedback etc..

Lessons were taught with practical examples

- Encourage teamwork and group activities
- Appreciating the different learning styles of your students

****Personalized Learning****: Implement strategies to cater to individual learning styles and pace, such as differentiated instruction, adaptive learning software, and personalized feedback.

No

Use better graphics and visual media to engage students well

Can be better

No suggestions

Should improve in lab skills

The teaching should be two way interaction

PRINCIPAL
BHASKAR PHARMACY COLLEGE
Bhaskar Nagar, Yenkapally (V),
Moinabad (M), R.R. Dist.
Hyderabad-500 075. T.S.

I am well satisfied with the methods and steps taken for better understanding and teaching going on in the institution

To identify the students weakness

Use of technology in class room and encourage students

All good skills

-

Teaching in chill way may help student to focus

Explain it twice to understand

We would appreciate if their would be any useful field trips for us.

Improve multimedia

First - Try to remove any and all preconceived notions towards students that you have based on the way they dress.

Second - try to be as impartial as you can.

Third - Hire more faculty like Dr Humeria or Dr Ramana Chari who had knowledge in their respective department and who were able to help student.

Provide training sessions, internships, jobs

Our teachers are well trained and experienced no suggestions thankyou

Teachers should be more interactive with students

Satisfied

Improvement in teaching

Be enthusiastic

.

Lab experiments should be done
PPT presentation
Usage of high Technology

PRINCIPAL
BHASKAR PHARMACY COLLEGE
Bhaskar Nagar, Yenkapally (V),
Moinabad (M), R.R. Dist.
Hyderabad-500 075. T.S.

Communication skills way of teaching and explanation

Fluency in english is very poor and randomly speaks in different language

Would like visits labs and gain real experience and learn from it encourage having physical knowledge more than physical.

Modern methods of technology like projector, multimedia, etc need to be installed. Lab equipments can be renewed. Practical learning can be enhanced by organising site visits. All the teaching staff needs to be fair in the grading of internal examinations.

Need to implement software development skills, visualization, statistics programming basics

Everything is good

College is tooo good 👍 everything is fine ✨

Learning experience was awesome

Focusing each and every student rather than few.

The overall learning experience at the Institute is excellent. To further enhance this experience, it would be beneficial for students to receive more information about real-time opportunities such as internships or specialized courses, before graduation. This would better prepare them for the challenges and expectations of the professional world.

Integrating this information into the curriculum or through dedicated career services can equip students with the necessary insights and skills, ensuring a smoother transition from academic life to their professional careers.

Overall very good college and supporting faculty

Teachers should help the students in project preparation and don't give any special treatment to their favourite student.

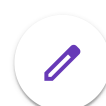

Encouraging active learning

-

.

Nothing

No suggestions needed

Everything is Good

NONE (ALREADY THEY ARE DOING WELL).

Overall teaching was good

Make one understand about multiple career options since 1st year of the course

Create open communication channel, reflect, analysing & identification of learner behaviour etc...

Teaching and learning can be improved in the institution by Monitoring the pupil's regularity, discipline and behaviour in class so that it won't effect the teacher's intrest in teaching and the other students will not face any issue. Using ICT tools may boost the students intrest in the lecture. Seminars and webinars can be conducted on topics apart from the syllabus to improve students' knowledge.

Thankyou.

Well experienced teaching

PRINCIPAL

- Ask for feedback from your students
- Encourage teamwork and group activities

****Technology Integration****: Utilize technology effectively by incorporating multimedia resources, online platforms for assignments and discussions, and interactive whiteboards to make learning more dynamic and accessible.

Provide internships and courses

Not only studies will improve our chances to grab jobs after passing out but the extracurricular activities may improve our chances for employment

I recommend our faculty, college staff to improve our CV to the greater extent by providing the facilities as capable.

Student friendly teaching qualities should be improved and should enable the student about the scope of course outcome

Try to reach every student ask for there doubts

Teachers should motivate students with all possible ways and some industrial tours can help students to improve there knowledge

There is no suggestion to be given, continue to encourage us to our future.

Excellent

Practical skills should be developed in labs

Improve multimedia, projectors for learning

Teaching should be two way interaction

Should Include practical skills

Its all good

No suggestions are needed

Should be disccuss in repeated manner ,gaining new knowledge eperienced in my institution

Instructual coaching sequencing curriculum

Increase interaction

I want to suggest good learning and practical skills, good placements with high onpak

Oftenly using projectors to display the content and build up the interest of students to gain it easily

Best experienced teachings skills should be provided easy to learn and remember

Huajskw

Teachers can teach in more interesting way which make the students to focus well in the class neither than getting boring of the class.teaching in a cool and chill way is better for students to listen than teaching in strict and boring way.

No suggestions

Dont teach from phone \youtube (not for all) dont just read but explain it clearly .Make available all the books in library and friendly staff in library

Explaining twice makes ti understand where well

Improve learning

It was good

Proper checking and interactions is needed 👍

Few members of faculty was not good, replace them by another faculty..who teach better than them....

Need

Communication with students in a effective way and without showing any partiality between student to student and encouraging the student is the best way to upgrade the student in good manner

Improve lab facilities

Maintain academic effective environment

Proper class rooms

Fest and cultures can be executed

Industrial work can be performed

Performing the each and every experimeny

Our teachers are well trained and experienced no suggestions thankyou

Help needed with the notes and refrences for learning

Selecting some gud mentors for the students to learn, betterly understand the concepts and encourage the students to participate in each and every programme. And provide various opportunities to each and every student well.

Interaction between the students and teacher should be quite friendly

Good

Providing proper notes

Much more better environment

Giving students practical knowledge, helping them to know the outcome of the course and even giving guidance on further studies so that they will know what to do in their life after this course and also providing information about skill development course to get a job

More interactive

use technology in the class room and ask the student doubts

It's good

The faculty should see that every student in equal way

Be enthusiastic

Betterment in teaching should be implemented

For learning we need some field works to get more knowledge

Satisfied

Be enthusiastic

A part from book knowledge teachers are requested to provide practical knowledge and they have to guide us to know more about opportunities that we have to choose for our career.

Teacher can teach in different ways so that students can understand easily

- Teaching can be made more interesting
- reading textbook should be avoided while teaching
- explanation can be made by using simple words and simple language for better understanding

Making more better understand to students

Attendance

All good

Teacher must learn proper teaching techniques and english

Active Learning Techniques Incorporate active learning methods such as collaborative projects, interactive discussions, and hands-on activities to make learning more engaging and Personalized Learning Paths Use data-driven approaches to create personalized learning plans that cater to the individual needs and learning styles of students. This could include adaptive

learning technologies and differentiated instruction Professional Development Invest in continuous professional development for educators to keep them updated on the latest teaching methods, technologies, and educational research. Technology Integration Integrate technology effectively in the classroom through the use of learning management systems (LMS), educational apps, and online resources to enhance learning and make it more accessible.

Collaborative Learning Spaces Design classrooms and learning spaces that facilitate collaboration and interaction among students, such as flexible seating arrangements and breakout areas for group work.

Student Support Services**^{††}: Strengthen student support services, including academic advising, tutoring, counseling, and career guidance, to help students navigate their educational journey successfully.

Inclusive Education Ensure that the learning environment is inclusive and supportive of all students, including those from diverse backgrounds and those with special educational needs. This includes promoting cultural competence and accessibility.

Community Building Foster a sense of community within the institution through extracurricular activities, clubs, and events that encourage student engagement and a sense of belonging Parental Involvement Engage parents and guardians in the educational process through regular communication, workshops, and involvement in school activities to create a supportive learning environment at home.

I hope teachers help students in practical knowledge

Not to teach very fast but slowly making understand every point and rest all is excellent

Providing Good Projects

Thank you for facilitating such a positive learning environment!"

"You have established a positive classroom atmosphere."

"Your use of multimedia resources effectively enhances lessons.

Everything was good

Explaining with an examples

We need more books to be issued in the library

More effects are needed while teaching

Communication teaching should be improved and teaching in an effective way should be done not just reading the lines and leaving it off

Nothing.

Experienced faculty should be there

Would like visits labs and gain real experience and learn from it encourage how physical knowledge more than physical.

Practical learning can be improved by organising site visits and better equipments in labs. I have faced unfair grading in my internal examinations.

Need more knowledgable faculty

Need new faculty

By creating a positive atmosphere

Need new staff

Be fair with all students and encourage them in different fields

Everything is good

One such thing I feel like that needs to be prioritized is , binding teaching or conceptual study to practical work that are connected to laboratory and experimentation field environment. This improves a students overview regarding field work that goes on in industrial and laboratory sector.

Improvement in technology for learning and interaction with the students

NA

Overall very good college and supporting faculty

Be focus on dull students.
