21. Give suggestions to improve the overall teaching – learning experience in your institution. *

The overall learning experience at the Institute is excellent. To further enhance this experience, it would be beneficial for students to receive more information about real-time opportunities such as internships or specialized courses, before graduation. This would better prepare them for the challenges and expectations of the professional world.

Integrating this information into the curriculum or through dedicated career services can equip students with the necessary insights and skills, ensuring a smoother transition from academic life to their professional careers.

21. Give suggestions to improve the overall teaching – learning experience in your institution. *

Teaching and learning can be improved in the institution by Monitoring the pupil's regularity, discipline and behaviour in class so that it won't effect the teacher's intrest in teaching and the other students will not face any issue. Using ICT tools may boost the students intrest in the lecture. Seminars and webinars can be conducted on topics apart from the syllabus to improve students' knowledge.

Thankyou.
