The Environment and Energy Usage Policy of BHASKAR PHARMACY COLLEGE (BPC) aims to manage and handle energy in such a method that its environmental bad effect is minimized. The policy suggests that all renewable energy resources should be explored in order to absolutely minimize the government's obstacles and to identify and use alternative resources as need to the energy issue.

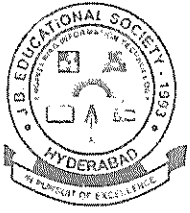

This environment and energy policy is obligatory on all components of the institution and applies to all stakeholders and the organization's different operations. It will certainly assist to all of us in incorporating efficiency and environmental consciousness into our daily actions, allowing us to recognize our duties and dedication to natural resource conservation and use. Green Campus Committee is dedicated to environmental awareness, green initiatives, and green literacy programs in order to conserve energy and safeguard the environment.

Policies:

- Analyze our energy use and its environmental effect.
- To analyze harmful emissions from our mode of transportation - vehicles.
- Minimize local air pollution emissions by adopting environmentally friendly vehicles such as public transit, and pedestrian-friendly streets.
- To install certain photovoltaic solar panels for the generation of alternate source of energy.
- To conserve energy, LED lights will be installed in entire the campus.
- To create a system for trash management.
- To create a rainwater collection system.
- To organize a tree-planting system.
- Taking additional steps to constantly improve all energy usage.
- To ensure the availability of all necessary resources to achieve our set objectives.
- To promote the use of innovative system to reduce energy consumption, greenhouse air/gas emissions, and high noise, from majority of the vehicle fleets.
- Communicate and engage government agencies, the municipal corporation, and the
